## **Cal OES Coastal Region – Planned Event and Major Exercise**

Monday, 10/06/14 through Tuesday, 10/14/14, the San Francisco Center for Humanitarian Disaster Response (SFCHADR), announces the return of Fleet Week to San Francisco. This year's program will feature several exercises, which include the delivery and demonstration of a United States Marine Corps (USMC) Shock Trauma Platoon at General Hospital, the 'Fifth Annual Senior Leaders' Seminar, the return of the popular 'K9 Heroes Program', and the exchange of best practices with San Francisco Fire Department's (SFFD's) Urban Search and Rescue team. Military medical and air teams will demonstrate the military's capability to enhance overall patient care capabilities within the city following a large-scale disaster (by invitation only).

Further San Francisco Fleet Week Information: <http://www.fleetweek.us/>

The Blue Angels will be conducting practice flyovers around San Francisco on Thursday, 10/09/14 and Friday, 10/10/14, from 1230 – 1600 hours.

The Air Show will commence on Saturday, 10/11/14 and go through Sunday, 10/12/14.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

Dry conditions will persist the next several days with some cooling through the week as a strong ridge aloft shifts east.

#### **San Francisco Weather:**

Weather conditions will remain dry and slightly cool through late week under weakening high pressure. A brief warming trend is forecast for the weekend with a ridge building off the west coast. A change in the pattern next week may result in much cooler temperatures and unsettled weather returning to the region.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Dry and warm weather for interior Northern California this week under high pressure. The pattern may shift to become more unsettled next week, but confidence is low in the details.

#### **Hanford Weather:**

High pressure will weaken beginning today and this will allow for some cooling. Temperatures will however remain above normal.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

High pressure over the western United States will continue to weaken resulting in slightly cooler temperatures though most area temperatures will remain above normal. Overnight low clouds and fog, locally dense, is possible in some coastal locations. High pressure will return to the area by the weekend resulting in rising temperatures and an absence of overnight low clouds and fog.

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Upper level low pressure will bring occasional cloudiness through Thursday morning. There could be a few thunderstorms over the mountains and deserts this afternoon and evening. Fair weather will return Thursday. Patchy night and morning fog will occur at times near the coast through Friday. Temperatures will be a little lower through Thursday, then high pressure aloft will bring warmer weather over the weekend...followed by cooling early next week.

#### **Southeast California Weather:**

Showers and isolated thunderstorms are expected across the area today. While widespread flooding is not anticipated, locally heavy rain will be possible at times today. There will be a continued chance of showers on Thursday before drier air moves into the area Thursday night. Dry conditions with near or slightly below normal temperatures are expected across the desert southwest through the weekend into the middle of next week.
